

5th Summer School
“Achievements and Applications
of Contemporary Informatics,
Mathematics and Physics ”
(AACIMP – 2010)

August 3—15, 2010, Kyiv (Ukraine)

<http://summerschool.ssa.org.ua>

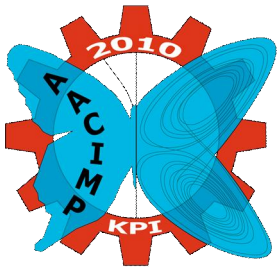

Summer School “Achievements and applications of contemporary informatics, mathematics and physics”(AACIMP-2010) is an unique scientific-educational project, which has been successfully carried out for 5 years by Students’ Science Association of National Technical University of Ukraine “Kyiv Polytechnic Institute”. The anniversary 5th Summer School will be held on August 3—15, 2010 in Kyiv (Ukraine). Participation in Summer School is a wonderful opportunity to broaden your horizons, find out more about the latest achievements of science, contemporary high technologies, and topical questions of scientific and technical progress of a society.

■ **Educational program of AACIMP-2010.** The courses are presented in form of lectures, seminars, workshops, discussions according to the topics of four areas (streams)::

- Applied Mathematics (courses: Operational Research, Logistics, Mathematical Modelling, Mathematical Finance);
- Sustainable Development (courses: Energy-Saving Materials, Economical and Social Aspects of Sustainable Development, Sustainable Technologies);
- Physics, Chemistry and Living Systems (courses: Neuromodelling, Chemoinformatics, Astrophysics);
- Informational Technologies (courses: Modern Software Technologies, Communication Systems, IT-management);

■ **Tutors of AACIMP-2010** are the scientists from well-known universities of Germany, France, Belgium, Sweden, Lithuania, Poland, Ukraine, Russia, Turkey, USA and the leading specialists of world's largest companies, such as Microsoft, Intel, Sun Microsystems, Sitronics and many others. The participants of Summer School have the possibility to know today what the whole world will know only tomorrow.

■ **Social events of AACIMP-2010.** If you want to discover something new, gain bright impressions, meet new people, find out more about culture, history of Ukraine and ancient Kyiv – join Summer School. Your staying in Kyiv during AACIMP will be fascinating and unforgettable.

5th Summer School
"Achievements and Applications
of Contemporary Informatics,
Mathematics and Physics "
August 3—15, 2010, Kyiv (Ukraine)

■ **Who can apply:** students, PhD students, young scientists and young specialists (under 35).

■ **Registration.** To participate you need to fill in an application form on the website of AACIMP-2010. The decision about the possibility of your participation will be made by Program committee within a month from a date of your registration.
